PrivCon Nigeria 2.0

Waxing stronger from our first outing in 2023!

Welcome to PrivCon 2024!

It is my utmost pleasure to extend a warm welcome to all participants, speakers, sponsors, and attendees joining us for this august gathering focused on privacy and data protection in Nigeria.

"Lack of awareness" has been reiterated as one of the major problems plaguing the development of privacy and data protection in Nigeria. Hence, PrivCon represents our own little way of increasing awareness around the subject. From this year's array of speakers and topical issues lined up for discussion, our drive at inclusivity is palpable.

Gracing the stage are representatives from the government, private sector, civil society, privacy professionals, legal professionals, academia and consumers etc. The sessions have also been carefully chosen to reflect diverse areas where privacy issues have arisen but perhaps not discussed or addressed enough in our country. The conference promises to be an enriching experience, featuring insightful and thought-provoking panel discussions, interactive workshop, ample networking opportunities. Our esteemed lineup of professionals and stakeholders will share their expertise, insights, and best practices, offering valuable perspectives on the evolving landscape of privacy.

To climax PrivCon this year, we have chosen to celebrate the outstanding but unsung heroes of privacy and data protection in Nigeria through the PrivCon Privacy Awards at the closing ceremony later this evening.

We extend our sincere gratitude to our sponsors, partners, and organizing committee for their invaluable support in making PrivCon possible. We also extend our heartfelt thanks to each and every one of you for your participation and commitment to privacy excellence.

We wish you all a productive, enlightening, and memorable experience at PrivCon 2024.

Respectfully

Olumide Babalola

PrivCon 2024

PrivCon Nigeria stands as a pivotal annual event on the Nigerian calendar, dedicated to addressing the multifaceted landscape of privacy, data protection and policy evolution. Since its inception in 2023, PrivCon has been at the forefront of shaping the discourse surrounding privacy/data protection issues and driving tangible policy changes that resonate both nationally and internationally.

In today's digitally-driven era, privacy concerns have reached a critical juncture, permeating every aspect of our personal and professional lives. From data protection to surveillance practices, from the implications of emerging technologies to the intricacies of regulatory frameworks, the scope and complexity of privacy issues continue to evolve at an unprecedented pace.

Against this backdrop, PrivCon Nigeria serves as a vital platform for stakeholders from diverse backgrounds to convene, collaborate, and strategize towards safeguarding privacy and data protection rights for all Nigerians. Our conference brings together thought leaders, policymakers, industry experts, civil society advocates, and technologists, fostering interdisciplinary dialogue and knowledge exchange.

PrivCon is more than just a conference; it is a catalyst for change. Through engaging keynote sessions, interactive panel discussions, hands-on workshops, and networking opportunities, PrivCon empowers participants to deepen their understanding of privacy challenges and explore innovative solutions to address them.
